TIP

You can select a sticky note and hit the pencil [switch to sketch] icon to start drawing!

Person 1

GreenClassify utilizes advanced neural networks for image recognition and classification.

Accurate Classification: It provides high accuracy in categorizing vegetables, aiding in inventory management and food recognition applications.

Vegetable Recognition: The system specializes in identifying various types of vegetables from images.

Person 2

Automation: It can be integrated into automated systems for efficient sorting and packaging of vegetables.

Real-time Processing: Capable of processing images in real-time, making it suitable for various industrial applications.

Group ideas

Take turns sharing your ideas while clustering similar or related notes as you go. Once all sticky notes have been grouped, give each cluster a sentence-like label. If a cluster is bigger than six sticky notes, try and see if you and break it up into smaller sub-groups.

 20 minutes

TIP

Add customizable tags to sticky notes to make it easier to find, browse, organize, and categorize important ideas as themes within your mural.
